The Basics of Sacroiliac Mobilization

Course Objectives

At the completion of the seminar, the participant will be able to:

- Independently discuss rationale for sacroiliac mobilization.
- Independently and correctly perform a sacroiliac evaluation to determine dysfunction.
- Correctly perform multiple movement dysfunction tests to ascertain the side of dysfunction
- Correctly palpate the landmarks of the pelvis to ascertain the type of dysfunction present in the pelvic girdle
- Demonstrate the ability to follow the correct order of treatment in the pelvis to best correct dysfunction
- Demonstrate correct application of specific mobilizations

Jason Hepworth, PT, DPT, CIMT

Jason holds a bachelor's degree in Health and Fitness in Preventative and Rehabilitative Programs from Central Michigan University. He also holds a doctorate in physical therapy from Grand Valley State University and is a Certified Integrated Manual Therapist (CIMT) through Great Lakes Seminars. Jason's approach to therapy

encompasses the use of joint and soft tissue mobilization, functional therapeutic exercise and patient education to return his patients to their highest functional level. Jason is always looking for opportunities to learn new things and improve himself as a clinician. Jason, his wife, and two children live in Southeast Michigan.
