Advanced Dynamic Anatomy: Bridging the Gap between Anatomy & Treatment

Course Objectives

At the completion of the seminar, the participant will be able to:

- confidently palpate and correctly differentiate each of the muscles covered in class in the upper extremity, the trunk and the lower extremity
- correctly and independently state and locate the origin and insertion of each of the muscles covered in the class
- independently demonstrate and verbalize how 10 muscle dysfunctions relate to common symptom patterns found within the body.

Greg Kopp, PT, MPT, OCS, CIMT

Greg graduated with his MPT from Oakland University in 1995. He has guest lectured at Oakland University on ACL/PCL surgeries and rehab, and served as a teaching assistant at Oakland for examination procedures

and therapeutic exercise. Greg is currently appointed as a clinical instructor for Oakland University. His treatment approach is eclectic, utilizing Kaltenborn and Paris manual techniques, and muscle energy techniques learned at Great Lakes Seminars. He has used this approach since 1995 working in outpatient orthopedic settings with a very diverse patient population, including sports medicine. Greg's treatment philosophy is to treat the driver of the patient's condition/pathology, and to teach the patient to manage their own condition. He also has an extensive background in weight training and exercise.

Course Outline

Saturday

- 7:30am Continental Breakfast
8:00am Lecture: Introduction, palpation principles, and functional anatomy principles, differentiation between muscle action and function
10:15am Lecture: Etiology of muscle strain/injury, functional synergies
12:00pm Lunch (on your own)
1:00pm Lab: Palpation/functional anatomy of upper extremity
3:15pm Lab: Speed palpation for upper extremity
4:00pm Lab: Case studies for upper extremity
5:00pm Review of Evidence-Based Literature for today's topics
5:30pm Adjourn

Sunday

- 7:30am Continental Breakfast
8:00am Review
8:30am Lab: Palpation/functional anatomy of neck and trunk
10:15am Lab: Palpation/functional anatomy of neck and trunk con't
11:00am Lab: Palpation/functional anatomy of lower extremity
12:00pm Lunch (on your own)
1:00pm Lab: Palpation/functional anatomy of lower extremity - con't
3:15pm Lab: Speed palpations for neck, trunk and lower extremity
3:45pm Lab: Case studies for neck, trunk and lower extremity
4:30pm Review of Evidence-Based Literature
5:00pm Adjourn

Continuing Education

This course has been submitted for 16 continuing education hours. Approval amounts may vary per state. Certificates of attendance with the number of course hours will be given to each participant at the completion of the course.
