Myofascial Release: Functional Integration

Course Objectives

At the completion of the seminar, the participant will be able to:

- State at least 3 of the underlying principles of MFR and be able to apply them to a patient in a treatment setting
- Demonstrate proper technique for hand placement and level of force for Releasing With Movement of 5 different tissues
- Demonstrate proper technique for therapist positioning and patient positioning for 5 different techniques/body parts
- Demonstrate proper technique for Releasing With Movement for 5 different techniques/body parts
- Independently discuss how myofascial release can impact each of the three treated systems to produce a clinically meaningful outcome

Greg Kopp, PT, MPT, OCS, CIMT

Greg graduated with his MPT from Oakland University in 1995. He has guest lectured at Oakland University on ACL/PCL surgeries and rehab, and served as a teaching assistant at Oakland for examination procedures

and therapeutic exercise. Greg is currently appointed as a clinical instructor for Oakland University. His treatment approach is eclectic, utilizing Kaltenborn and Paris manual techniques, and muscle energy techniques learned at Great Lakes Seminars. He has used this approach since 1995 working in outpatient orthopedic settings with a very diverse patient population, including sports medicine. Greg's treatment philosophy is to treat the driver of the patient's condition/pathology, and to teach the patient to manage their own condition. He also has an extensive background in weight training and exercise.

Course Outline

Saturday

7:30am	Doors Open
8:00am	Lecture: New definition of fascia and its effect on treatment, roles of fascia
10:00am	Lecture: Anatomy of fascia, biomechanics of facia and the body, concept of releasing with movement
12:00pm	Lunch (on your own)
1:00pm	Lab: Releasing With Movement: Cervical muscles, thoracic myofascial structures Lab:
2:00pm	Releasing With Movement: Scapula and posterior shoulder myofascial structures
3:00pm	Lab: Releasing with Movement: Anterior shoulder, upper arm, lower arm myofascial structures
5:00pm	Review of evidence-based literature
5:30pm	Adjourn
Sunday	
7:30am	Doors Open
	8:00am 10:00am 12:00pm 2:00pm 3:00pm 5:00pm 5:30pm Sunday

7:30am	Doors Open
8:00am	Lab: Releasing with movement: Lower thoracic,
	lumbar, anterior & posterior pelvis myofascial
	structures
12:00pm	Lunch (on your own)
1:00pm	Lab: Releasing with Movement: Anterior &
	posterior hip, anterior and posterior thigh
	myofascial structures
3:00pm	Lab: Releasing with Movement: Posterior lower
	leg and plantar foot myofascial structures
4:30pm	Case studies
5:00pm	Adjourn

Continuing Education

Our courses are submitted for continuing education approval in the state in which they are held. Please check www.glseminars.com to ensure that the course you are planning to attend is approved in your state. Certificates of completion with the number of course hours will be emailed to attendees after the completion of each course.
